ANIMAL WELFARE POLICY www.hawkesburyshow.com.au

Hawkesbury District Agricultural Association (HDAA) provides for the welfare and treatment of animals on the showground. The expectations and requirements are for the care of animals and if exhibitors breach these conditions HDAA may take action if required through ejecting the involved exhibitor and/or reporting the incident to the RSPCA for appropriate action.

An Exhibitor or Attendant of an Animal Exhibit must use all reasonable steps to ensure that the exhibit is Housed and cared for in accordance with the Animal Welfare Policy. Please be mindful that there are public patrons watching you and your animals throughout the day. Animal Welfare is a human responsibility that encompasses all aspects of animal wellbeing. This includes, but is not limited to:

- Proper housing
- Management
- Nutrition
- Responsible care
- Humane handling, and
- Veterinary treatment

**Agricultural Societies Council of New South Wales
Incorporated Participants & Parental/Guardian Indemnity
and Waiver
RISK WARNING**

The Agricultural Societies Council of New South Wales advises that the participation, including passive participation in events or activities at an agricultural show contains elements of risk, both obvious and inherent, the risks involved may result in property damage and/or personal injury including death.

1. I the signatory acknowledge, agree and understand that participation, including passive participation, in events and activities at this, or any other show contains a risk of injury and I agree that I undertake any such risk voluntarily of my own free will and at my own risk.
2. I the signatory acknowledge, agree, and understand that the risk warning at the top of this form constitutes a “risk warning” for the purposes of Division 5 of the Civil Liability Act of 2002(NSW).
3. I the signatory acknowledge the risk referred to above and agree to waive any and all rights that I, or any person claiming through me, may have against the Hawkesbury District Agricultural Association in relation to any loss or injury (including death) that is suffered by me as a result of my participation in any event held by the Show.
4. The signatory must continually indemnify the Hawkesbury District Agricultural Association on a full indemnity basis against any claim or proceeding that is made, threatened or commenced and any liability, loss(including consequential loss or loss of profits), damages or expense (including legal costs on a full indemnity basis) that the Hawkesbury District Agricultural Association incurs or suffers, as a direct or indirect result of result of the participants participation in any event held by the Hawkesbury District Agricultural Association.

I have read this Indemnity and Waiver form and acknowledge and agree with its contents. I have made any further enquiries which I feel are necessary or desirable and fully understand the risks involved with this activity.

Name.....

Address.....

Signature.....Date.....

To be completed by the Parent/Guardian of children under 18 years of age.

5. I understand that by participating in this Show (name of minor) may become exposed to the risk of injury, and I consent to the participation.

6. The signatory acknowledge the risk referred to above and agree to waive any and all rights that I, the above-named minor, or any person claiming through me, may have against the Hawkesbury District Agricultural Association in relation to any loss or injury (including death) that is suffered by me as a result of my participation in any event held by the Show.

1. I, the signatory assent that the above-named minor voluntarily consents to participation in this Show.

I have read this Indemnity and Waiver form and acknowledge and agree with its contents. I have made any further enquiries which I feel are necessary or desirable and fully understand the risks involved with this activity.

Biosecurity and health information

1. Has the owner stated above owned all the cattle in this consignment since birth? Y N

2. Does the property of origin have a completed on-farm biosecurity plan? Y N

3a. Have these cattle been tested for the presence of pestivirus antigen? Y N
If tested, were any cattle found to be persistently infected? Y N

3b. Have these cattle been tested for the presence of pestivirus antibody? Y N
If tested what percentage of the tested cattle were antibody positive?

4. Has the property of origin had an occurrence of clinical Johne's disease (JD) in any species in the past five years? Y N Unsure
J-BAS of (Optional)

5. On the property of origin, have cattle been co-grazed with dairy cattle? Y N Unsure
See explanatory note for advice on co-grazing with non-bovine species

6. Has the source herd had a JD test? Y N Pending
If so, which test? Check Test Sample Test Date / /
Was the result negative? Y N

7. If dairy cattle, the consignment has a Dairy Assurance Score of: Part A (herd base score) Part B (calf credits) Part C (total Dairy Score)

8. Any other relevant health information

Treatments

Treatment type	Product	Date of treatment within last 6 months
Drench or pour-on		
Liver fluke		
Other treatments		

Current vaccinations for the cattle being moved (see explanatory note)

NATIONAL CATTLE HEALTH DECLARATION EXPLANATORY NOTES

OVERVIEW

The Cattle Health Declaration is a legal document. Please complete accurately before signing.

Cattle Health Declarations are a way for producers to provide information about the health status of the cattle they are selling. Buyers should ask vendors for a Declaration and use the information provided to determine the health risks associated with the animals on offer.

Some states/territories require testing or certification additional to that outlined in this document e.g. Johne's disease (JD) in WA and for Enzootic Bovine Leucosis (EBL) in Tasmania. Please check the entry requirements for any interstate movements at:

www.animalhealthaustralia.com.au/what-we-do/endemic-disease/livestock-movements

The original of this form is to be attached to the National Vendor Declaration (NVD) form accompanying the cattle, if applicable. A duplicate remains with the vendor; it is recommended the vendor retains a copy of this declaration for seven (7) years.

TREATMENTS & VACCINATIONS

Provide details on any cattle treatments in the last six (6) months and vaccinations within the last twelve (12) months.

Some manufacturers include more than one of the categories listed in the same vaccine, known as a combination vaccine. If you use a combination vaccine, each agent(s), as appropriate, should be detailed.

For vaccinations to be current, you must have followed the manufacturer's recommendation for vaccination. Typically, young animals or first time vaccinated animals need two (2) doses, followed by annual boosters. As variations to this general rule do occur (e.g. Silirum is given once only), you must use the manufacturer's recommendations.

At the date the declaration is made and as a result of the vaccination(s) given, the animals are considered protected from the diseases marked as treated.

QUESTION 3: PESTIVIRUS TESTING

Persistently infected animals can be detected by conducting a pestivirus antigen test. This test only needs to be conducted once in an animal's life. Cattle that test positive in most cases are persistently infected animals. Pestivirus antibody testing may be done to check the pestivirus status of the herd. Contact your veterinarian for assistance.

QUESTIONS 4, 5 & 6: JOHNE'S DISEASE BEEF CATTLE

Note: JD is a notifiable disease, so it is important to answer these questions.

Occurrence of JD refers to clinical disease in the herd or on the property(s). Clinical disease is an infected animal with chronic diarrhoea and weight-loss that does not respond to treatment.

The **Johne's Beef Assurance Score (J-BAS)** is a voluntary tool developed for JD risk profiling. Details are available at www.animalhealthaustralia.com.au/jd-cattle-tools. The J-BAS is an initial guide and purchasers should ask for more information about JD in the origin herd (see the JD in Cattle Biosecurity Checklist on the 'JD in cattle' webpage). The *National Farm Biosecurity Reference Manual - Grazing Livestock Production* provides a template to use for the property biosecurity plan. All plans should include the JD in Cattle Biosecurity Plan Checklist.

Check test – testing of 50 adult animals in the herd (or all eligible animals in a herd if less than 50 adult animals) biased to increase the probability of detecting infection, tested by (pooled) faecal culture or (pooled) HT-J faecal PCR. An ELISA test is available but is not recommended and also not accepted for entry of cattle to WA.

Sample test – screening of the adult herd or a large representative sample of the adult herd by an approved test (pooled) faecal culture or (pooled) HT-J faecal PCR. See note above for ELISA test.

Grazing of non-bovine species – Buyers of cattle from this consignment may consider the grazing of other JD-susceptible species (sheep, goats, alpacas) on the source property as important to their risk-management decisions. These buyers are entitled to seek information on how you have managed disease risks for all your livestock.

QUESTION 7: JOHNE'S DISEASE DAIRY CATTLE

JD herd status information about Dairy Assurance Score calculation is available at www.dairyaustralia.com.au/bjd

DECLARATION

This section must only be completed by the owner or person responsible for the husbandry of the cattle in the consignment.

For more information on what is fit to travel, please see MLA's *Is it fit to load?* at <http://publications.mla.com.au/qo/yzSxUWsNcYsjeJe>.

For more information on biosecurity go to www.farmbiosecurity.com.au
